Did you love watching the fish in ***teamLab: Continuity*** and ***teamLab: Sketch Ocean***? Though those sea creatures are no longer swimming through our halls, you can still find many aquatic friends in our galleries.

One of the fun parts about looking at art is noticing special details. **Test your powers of observation** by going on a scavenger hunt inspired by the vibrant imagery in the exhibitions *teamLab: Continuity* and *teamLab: Sketch Ocean*.

Find the fish in the collection galleries on the second and third floors. Be one of the first to bring your completed scavenger hunt to the information desk in Bowes Court in exchange for a prize!

Find the Fish
